

Date: Oct. 24, 2025

Attendees: everyone

### **Meeting with Professor**

- Professor questions:
  - If the user wants to trade, and they're looking for a certain card, can they search for a card in the app?
    - Only cards users allow to be traded to appear.
- POC:
  - Detection of cards.
  - Different tabs in our app.
  - Description of our app.
  - Our plan:
    - Detection of plans.
    - Viewing collection of cards.
- Hit-rate and top N hit-rate for our model metrics.
- Make it clear we're not doing NFTs.

### **Weekly Sync-up**

- Auto-generating holo, reverse holo tags for cards when they're detected.
- N hit rate can be the different variations of the same card with the same id (Holo, reverse holo, normal, copyright year, etc)
- Go over each others' progress on Oct. 13 - 24 sprint.
- Create and assign tickets for the Oct. 24 - Nov. 7 sprint.
