

Date: Oct. 3, 2025

Attendees: everyone

### When to have the meeting with the prof - fr

- Booked Oct 24th 10:00 a.m. - 10:15 a.m.

	24-Oct	
9:30-9:45 am		
9:45-10:00 am		
10:00-10:15 am	group 9	
10:15-10:30		
10:30-10:45		
10:45-11:00 am		
	27-Oct	
9:30-9:45		

### SRS

- Reformat SRS later to keep it 15 pages max.
- Project constraints:
  - To display stock images of cards vs. the users' pictures of cards.
  - To handle only English cards or all languages.
- Reformat functional requirements.
- Expand on GUI functional requirements since it's too vague.
- Data and metrics:
  - Constrain the project to only Pokemon cards.
  - Change to only one performance minimum instead of separating between typical and low-end devices.
- Aim to be done by the end of Oct 9th so that we can discuss it before the mandatory lecture on the 10th.
- Idea for Proof of concept -> hope to have scanning working and base functionality for other things done (implement most of p0 requirements)
- Make gantt chart with mostly complete reqs as base line for deadlines
