

Date: Jan. 9, 2025

Attendees: Everyone

### **Updates:**

- Added tooling
- User Journey Flow Chart Diagram
  - Decided that login must be done with email 2FA
  - Hoping that, given the time, we could create similar user journey charts for other users (especially malicious users)
- Design and V&V template started
- Local database setup, schema uploaded to repo

### **Discussing design document roles:**

- Discussed breakdown of design document
- Decide on components and their relationships to each other
- Modules vs pages
- We have UI, we have AI model component
- Card identifier component will include both interface and mechanism
- Skip imagebucket and image server, just use card data api for high res images

### **Discussing V&V plans:**

- Document testing plans and assigned roles
- Finish most by next week (Jan 16th)
  - Normal behaviour
  - Implementation
  - Potential undesired behaviours

### **Plans for upcoming sprint:**

- Make final decisions for design choices (font, colour, etc.)
  - Justifications for choices?
- Whip up homepage and other missing pages for Figma
- Get V&V done by NEXT WEEK!! (JAN 16TH)W
